SUBJECT INDEX

Accessory function, 116
Acquired immunodeficiency syndrome, 136, 263, 500
Acute myocardial infarction, 209
Adenosine deaminase deficiency, 491
Ageing, 74, 440
AIDS-related complex, 500
Albuminuria, 619
Allergic bronchopulmonary aspergillosis, 247
Allotolerance neonatal, 61
Antibodies, 449, 555
  anti-DNA, 18, 26
  anti-histone, 47
  anti-mitochondrial M2, 640
  anti-nuclear, 47
  eye muscle, 593
  salivary, 316
Antibody-dependent cell-mediated cytotoxicity 593
Antibody-dependent cellular cytotoxicity, 479
Anticardiolipin, 18
Antigen
  anti-HBs, 283
  brush border, 434
  CD4, 379
  cell surface, 515
  Class II, 386
  eye muscle cells HLA-DR, 593
  histocompatibility, 35
  major (Ag 13, C antigen), 247
  parietal cell, 604
Anti-idiotype, 26
Arthritis
  rheumatoid, 1, 10, 555
Aspergillus fumigatus, 247
Autoantibodies, 68, 94, 529, 546
  brain-reactive, 74
  liver-kidney microsomal, 53
  natural, 53, 538
Autoimmune thyroid disease, 102
Autoimmune thyroiditis, 68
Autoimmunity, 61, 74, 585
Autologous mixed lymphocyte reaction, 10

Basement membrane protein, 555
Biopsy fine-needle aspiration, 425

Calcium ionophore, 173, 456
Candidosis oral, 316
Capsule, 238
Cells
  antigen presenting, 127
  B cell, 463
  B cell differentiation, 649
  B cell polyclonal activator membrane proteoglycan, 201
  B cell proliferation, 649
  B cell subsets dendritic, 1, 515
  human umbilical vein endothelial, 471
  Langerhans, 379
  lymphokine activated killer, 217, 222
  natural killer, 209, 217, 222, 255, 354
  plaque forming, 463
  plasma, 192
  synovial fluid mononuclear, 10
  T cell, 463
  $T4^+$ cell, 336
  T cell antigen responses, 1
  T cell function, 94
  T intrathyroidal, 403
  T cell receptor, 152
  T cell subsets, 110
Cellular immunity, 164
Cellular interaction, 403
Central nervous system disorders, 74
Chemiluminescence, 658
Chimerism, 61
Cholera toxin, 94
Clonal analysis, 164
Complement, 619
  activation, 500
Contact sensitivity, 217
Cryptococcus neoformans, 238
Cyclosporin A, 471, 570
Cytotoxic chemotherapy, 630
Cytotoxic function, 222
Cytotoxicity, 217, 276

Densitometric subtraction, 53
Desferrioxamine, 345
Diabetes mellitus insulin dependent (Type I), 84
Diabetes mellitus insulin dependent, 152
Diabetes type 1, 585
Dipeptidyl peptidase IV, 434
Disease
  coeliac, 386
  glomerular, 417
  Graves', 403
Dose-response curve, 328

ELISA, 247, 417, 604, 640

R. HOLMDAHL, LISELOTTE JANSSON, B. MEYERSON & L. KLARESKOG: Oestrogen induced suppression of collagen arthritis: I. Long term oestradiol treatment of DBA/1 mice reduces severity and incidence of arthritis and decreases the anti-type II collagen immune response 372

L. J. WALSH. A. PARRY, A. SCHOLES & G. J. SEYMOUR: Modulation of CD4 antigen expression on human gingival Langerhans cells by gamma interferon 379

N. J. E. MARLEY, C. J. MACARTNEY & P. J. CICLITIRA: HLA-DR, DP and DQ expression in the small intestine of patients with coeliac disease 386

S. P. JAMES & A. S. GRAEFF: Effect of IL-2 on immunoregulatory function of intestinal lamina propria T cells in normal non-human primates 394

K. EGUCHI, T. OTSUBO, Y. KAWABE, Y. UEKI, T. FUKUDA, MAYUMI MATSUNAGA, CHIKAKO SHIMOMURA, N. ISHIKAWA, H. TEZUKA, H. NAKAO, K. ITO, C. MORIMOTO & S. NAGATAKI: The remarkable proliferation of helper T cell subset in response to autologous thyrocytes and intrathyroidal T cells from patients with Graves' disease 403

AVA LOBO-YEO, GIORGINA MIELI-VERGANI, G. KENNA, A. P. MOWAT & D. VERGANI: Evidence of impaired antigen specific suppressor cell function in children with autoimmune chronic active hepatitis 411

I. HORIGOME, J. SEINO, K. SUDO, Y. KINOSHITA, T. SAITO & K. YOSHINAGA: Terminal complement complex in plasma from patients with systemic lupus erythematosus and other glomerular diseases 417

CAROLA GRÖNHAGEN-RISKA, E. HONKANEN, EEVA VON WILLEBRAND, I. TIKKANEN, A. MIETTINEN, H. HOLTHÖFER & T. TÖRNROTH: Interstitial mononuclear cell infiltration in Heymann nephritis 425

Y. NATORI, IKUHO HAYAKAWA & S. SHIBATA: Identification of gp108, a pathogenic antigen of passive Heymann nephritis, as dipeptidyl peptidase IV 434

DONNA M. MURASKO, P. WEINER & D. KAYE: Decline in mitogen induced proliferation of lymphocytes with increasing age 440

D. A. SCHATZ & D. J. BARRETT: Evolution of the subclass of IgG antibody of Type 3 pneumococcal polysaccharide during childhood 449

R. K. CHOPRA, J. E. NAGEL, F. J. CHREST & W. H. ADLER: Impaired phorbol ester and calcium ionophore induced proliferation of T cells from old humans 456

D. DEGIANNIS, A. MCI. MOWAT, E. GALLOWAY, D. TSAKIRIS, J. D. BRIGGS, B. J.R. JUNOR & DELPHINE M. V. PARROTT: *In vitro* analysis of B lymphocyte function in uraemia 463

E. CARLSEN, METTE B. STINESSEN & H. PRYDZ: Differential effect of α-interferon and γ-interferon on thromboplastin response in monocytes and endothelial cells 471

F. DALLEGRI, G. FRUMENTO, A. BALLESTRERO, R. GORETTI & F. PATRONE: Relationship between antibody-dependent tumour cell lysis and primary granule exocytosis by human neutrophils 479

RÉGINE ROUBIN, P. P. ELSAS, W. FIERS & A. J. DESSEIN: Recombinanct human tumour necrosis factor (rTNF)² enhances leukotriene biosynthesis in neutrophils and eosinophils stimulated with Ca^{2+} ionophore A23187 484

VOLUME 70 · NUMBER 3 · DECEMBER 1987

G. MORGAN, R. J. LEVINSKY, K. HUGH-JONES, LYNETTE D. FAIRBANKS, G. S. MORRIS & H. ANNE SIMMONDS: Heterogeneity of biochemical, clinical and immunological parameters in severe combined immunodeficiency due to adenosine deaminase deficiency 491

R. PERRICONE, L. FONTANA, CATERINA DE CAROLIS, C. CARINI, MARIA CATERINA SIRIANNI & F. AIUTI: Evidence for activation of complement in patients with AIDS related complex (ARC) and/or lymphoadenopathy syndrome (LAS) 500

JANICE TAVERNE, DURDANA RAHMAN, HAZEL M. DOCKRELL, AZITA ALAVI, CORAL LEVETON & J. H. L. PLAYFAIR: Activation of liver macrophages in murine malaria is enhanced by vaccination 508

P. M. KAYE: Inflammatory cells in murine visceral leishmaniasis express a dendritic cell marker 515

E. BRUMMER & D. A. STEVENS: Activation of pulmonary macrophages for fungicidal activity by gamma-interferon or lymphokines 520

ELOISA BONFA, R. LLOVET, M. SCHEINBERG, J. M. DE SOUZA & K. B. ELKON: Comparison between autoantibodies in malaria and leprosy with lupus 529

W. MAHANA, BRIGITTE GUILBERT & S. AVRAMEAS: Suppression of anti-DNA antibody production in MRL mice by treatment with anti-idiotypic antibodies 538

M. TAKEI, H. DANG & N. TALAL: A common idiotype expressed on a murine anti-Sm monoclonal antibody and antibodies in SLE sera 546

J. L. AVILA, M. ROJAS, GLADYS VELÁZQUEZ-AVILA & M. RIEBER: Antibodies to basement membrane proteins nidogen and laminin in sera from streptococcal-related diseases and juvenile rheumatoid arthritis patients 555

T. KIM, Y. KANAYAMA, N. NEGORO, M. OKAMURA, T. TAKEDA & T. INOUE: Serum levels of interferons in patients with systemic lupus erythematosus 562

VIRGINIA L. CALDER, ANGELA S. BELLAMY, SAMANTHA OWEN, CYNTHIA LEWIS, P. RUDGE, . N. DAVISON & M. FELDMANN: Effects of Cyclosporin A on expression of IL-2 and IL-2 receptors in normal and multiple sclerosis patients 570

ESTER AFLALO, RIVKA OFIR, RON N. APTE & Y. WEINSTEIN: Characterization of mouse thymocyte subpopulations by the enzymatic marker 20-α-hydroxysteroid dehydrogenase: differential responses to IL-1 and IL-2 578

GUDRUN KANTWERK, S. COBBOLD, H. WALDMANN & H. KOLB: L3T4 and Lyt-2 T cells are both involved in the generation of low-dose streptozotocin-induced diabetes in mice 585

Y. HIROMATSU, H. FUKAZAWA, J. HOW & J. R. WALL: Antibody-dependent cell-mediated cytotoxicity against human eye muscle cells and orbital fibroblasts in Graves' ophthalmopathy—roles of Class II MHC antigen expression and γ-interferon action on effector and target cells 593

F. A. KARLSSON, PIA BURMAN, L. LÖÖF, M. OLSSON, ANNIKA SCHEYNIUS & S. MÅRDH: Enzyme-linked immunosorbent assay of H^+, K^+-ATPase, the parietal cell antigen 604

MAUREEN G. BRUCE, S. STROBEL, D. G. HANSON & ANNE FERGUSON: Irridiated mice lose the capacity to 'process' fed antigen for systemic tolerance of delayed-type hypersensitivity 611

J. A. SAVIGE & C. M. LOCKWOOD: Factors affecting the glomerular protein leak after polyclonal activation in the $HgCl_2$-induced model of anti-GBM disease in the Brown Norway rat 619

H. HAAS, A. LANGE & M. SCHLAAK: Homogenous immunoglobulins in the sera of lung carcinoma patients receiving cytotoxic chemotherapy—detection with the use of isoelectric focusing and immunoblotting 630

G. DIGHIERO, CH. MAGNAC, JACQUELINE DE SAINT MARTIN & N. ABUAF: Detection of anti-mitochondrial antibodies by ELISA and Western-blot techniques and identification by one and two-dimensional gel electrophoresis of M2 target antigens 640

W. STOHL & L. MAYER: Inhibition of T cell-dependent human B cell proliferation and B cell differentiation by polyspecific monomeric IgG 649

AKEMI KUBO, M. SASADA, T. NISHIMURA, T. MORIGUCHI, T. KAKITA, K. YAMAMOTO & H. UCHINO: Oxygen radical generation by polymorphonuclear leucocytes of beige mice 658

ROYAL COLLEGE OF PHYSICIANS COMMITTEE ON CLINICAL IMMUNOLOGY: The physician immunologist: future role and manpower needs 664
